

H12 PRODUCT OVERVIEW

The H12 sit-in hybrid kayak delivers a unique blend of performance, storage capabilities and rigging characteristics to be an all-species angling kayak. It's the perfect craft for overnight expeditions, yet nimble and balanced enough for day trips. The hybrid tunnel hull provides great primary and secondary stability as well as an excellent standing and fishing platform. The stepped bow and stern keel design will punch through surf and slide into the backwaters, all while

Tunnel Hull: Custom tunnel-style hull with a stepped keel in the bow and stern to deliver excellent hydrodynamic performance, as well as a solid platform with best-in-class maneuverability in rivers and streams.

Accessory Rails: 3 recessed accessory rails pre-installed into the port, starboard and forward midship gunnels allow you to quickly add virtually any aftermarket accessory that attaches to a rail system – [Accessories not included](#).

Adjustable Foot Braces: Allows a comfortable fit for anyone approximately 5' 2"–6' 2" (1.57–1.88 m) tall. Adjustments can be made in tandem with the 8" (20.32 cm) seat adjustment to balance the load and maximize performance.

Deluxe Removable Seating System: Suspended deluxe steel frame ergonomic cushioned seat with upgraded integration into the kayak and innovative features to keep you high, dry and comfortable. Positive friction bungee hold downs secure the seat while portaging and transporting it. It features 6-position adjustability for maximum comfort while paddling. The removable seat can be used at base camp and includes dual drink holders that rotate 180 degrees.

Soft Seat Backpack: Store wet or dry gear in the quick-connect, removable soft storage backpack!

Multipurpose Open Deck: Open deck platform offers maximum storage versatility, including a bow hatch and stern cover.

delivering great maneuverability. Extreme all-day comfort is also designed in with the advanced seating system. Plus, plentiful storage throughout (including innovative storage integrated into the open deck and cockpit), easy entry and exit and a payload of as much as 450 pounds (204.12 kg) are why ASCEND calls it "The Hybrid 12." It all comes together to make the H12 one of the most versatile fishing kayaks in the industry.

Bow Bungee Hold Downs: Allows you to secure cargo on the bow.

Large Cockpit: Largest open cockpit on the market allowing for more mobility as well as easy entry and exit – 53-1/2" long (1.36 m), 23-1/2" wide (59.69 cm).

Hard Bow Hatch: Quick-connect, removable rotomolded hatch with dual-connect carabiners that attach to both ends of the tethering system. It floats!

Expandable Mesh Stern Cargo Cover: Multipurpose stern tankwell sized to accept very large dry bags and plentiful gear options. Cover allows quick access while securely holding gear and can be adjusted to suspend off the bottom of the hull to create a dry, quick-access storage area.

Soft Saddlebags: Port and starboard saddlebags that quickly connect to the under-gunnel D-rings with carabiner clips. Includes 2 types: open mesh and waterproof material. Extra carabiner clips included.

Dual Flush-Mounted Rod Holders: Allows secure transport of various types of rods and reels with quick access while on the water. Rod leash ready.

Performance Grip Handles: Molded-over bow and stern rubber grip handles for easy transport. Attached with 1/4" (.64 cm) stainless steel bolts.

Drain Plug: Threaded, sealed drain plug allows you to easily drain excess water from the boat.
